

OPEN SURVEY DATA LAB

Advanced Services Engineering - Thomas Hießl

SCENARIO:

SURVEY PLATFORM + ANALYTICS + OPEN DATA MARKET = OPEN SURVEY DATA LAB

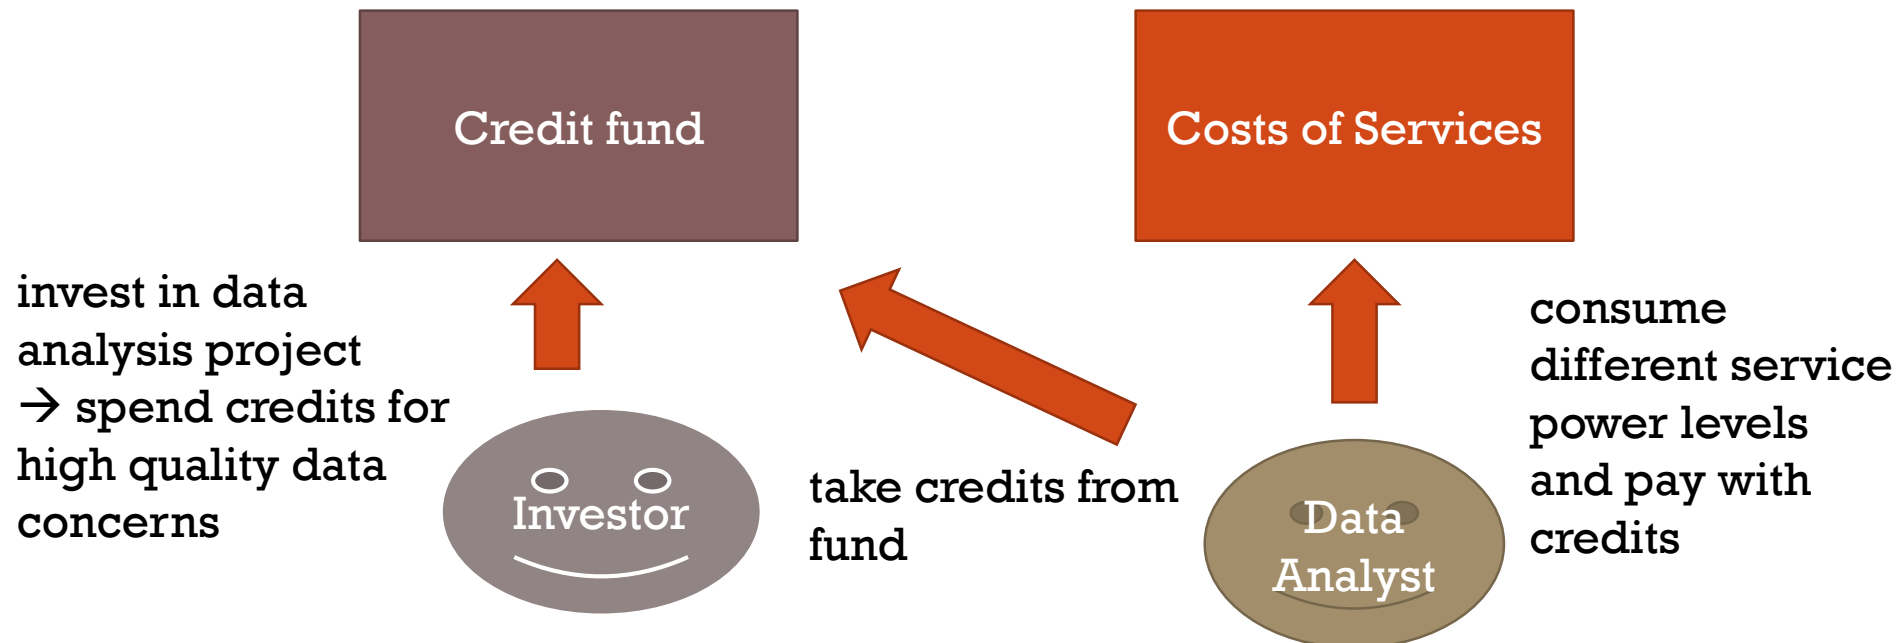

- Create Surveys → Distribute → Answer Questions and Receive Data
- Perform Data Analytics
- Publish Results, Gain Insights!
- Recombine it!

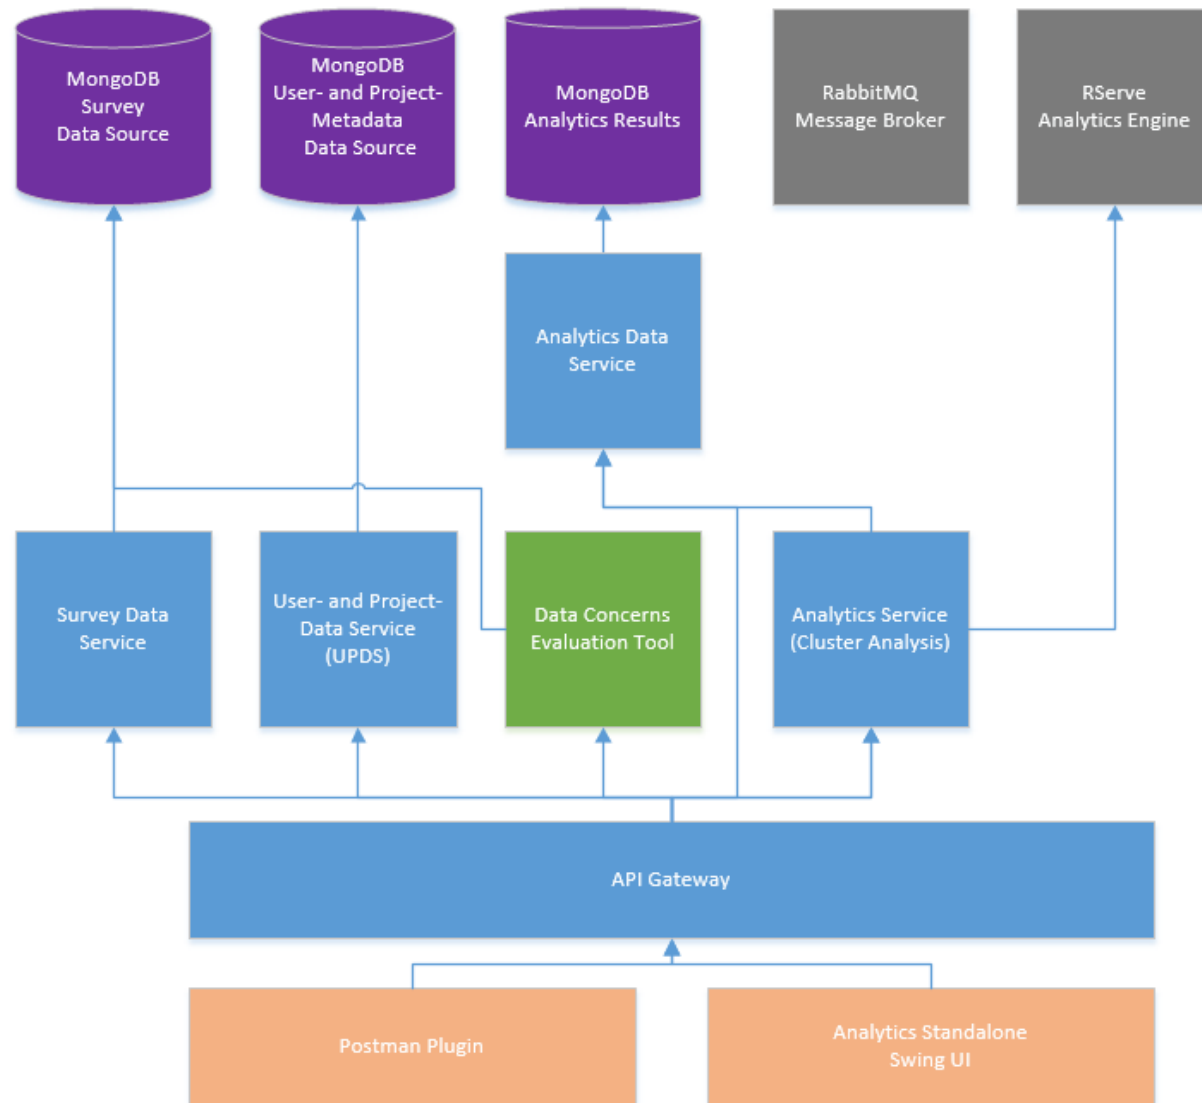

„BUSINESS MODEL“

- Although it is conceptualized as an open survey data analytics platform
 - → need for covering the costs

REALIZED SERVICE DESIGN

Hosted in Docker Container

Micro Service Architecture (Spring Boot)
