

# DaaS Concerns

---

The goal of this assignment is to analyze DaaS concerns:

- 1) Which are the main DaaS concerns for open government data? Evaluate these concerns with UK (<http://data.gov.uk/>), US (<http://www.data.gov/>) and Austria (<http://gov.opendata.at/site/>) open government data
- 2) Which are the main DaaS concerns for (near) real-time/static open sensor data for city management? Evaluate these concerns with COSM ([cosm.com](http://cosm.com)). Some types of open data for city management can be seen from <http://www.greenbiz.com/events/verge/2012/11/hack-city/resources>.

The analysis should present qualitative and quantitative information. You should use tables and charts to show the result and briefly explain your analysis result.

The report should be limited to 2 pages in IEEE computer society format template (<http://www.computer.org/portal/web/cscps/formatting>).

The report should be submitted by **Thursday 15.11.2012** to [truong@dsg.tuwien.ac.at](mailto:truong@dsg.tuwien.ac.at).
